Forecast for Sunday 06 Aug 2023

Weather: Mainly dry during the early hours with patchy cloud and clear spells. Scattered showers developing during the morning but bright or sunny intervals in between the showers. Some of the showers may be briefly heavy, particularly around the middle of the day. Probably turning drier towards the evening with more in the way of sunny spells.

Chance of cloud-free hill tops above 600m: 60% becoming 90%

Low cloud and visibility: Patches of cloud above 700m first thing, but this lift to just above the summits through the morning. Generally excellent visibility with superb air clarity allowing far reaching views of distant hills and landmarks, however locally poor/very poor in any morning cloud and locally briefly becoming moderate in any showers.
